

Summary of Comments and Concerns about proposed Side Walk Improved Plan  
at Village Hall Meeting, January 26, 2013

1. Most concerned about the need for new and replacement sidewalks in many parts of the village
2. Need to lower the speed limit on Village roads and more enforcement of speed limits
3. Issue related to snow plows burying the current sidewalks making cleaning a problem
4. Need to consider continuing the sidewalk cost share program for individuals
5. Need to consider putting more funds into the sidewalk improve plan than the \$80,000 set aside
6. Look for additional funding opportunities like the Safe Routes to School Program and Block Grants
7. Sites selected need to have a strong neighbor commitment, first to construct the sidewalks and then to maintain them, especially for individuals who may have trouble doing the work (elderly, individuals with disabilities, etc).
8. Town of Ulysses (from a Town Board member) has given high priority to the Fairgrounds to Kinney/Sure Save section of new sidewalks. Would fund material cost, provide some labor-equipment and to reimburse the Village for winter maintenance.
9. Other areas to consider:
  - Old Main
  - Cayuga St from Union to Prospect
